Why ASRE ENGINEERING?

Established in 1999, **ASRE Engineering** is a trusted manufacturer and supplier of industrial filtration, flow measurement, and instrumentation solutions. With over **27 years of engineering excellence**, we specialize in designing and manufacturing high-quality products that protect critical process equipment, improve operational efficiency, minimize downtime, and reduce maintenance costs across a wide range of industries.

Our commitment extends beyond manufacturing. By combining engineering expertise, precision manufacturing, and stringent quality standards, we deliver reliable, high-performance solutions tailored to meet the evolving needs of modern industries.

OUR CORE STRENGTHS

27+ Years of Industry Expertise

Over two decades of proven experience in designing and manufacturing industrial strainers, filtration systems, flow measurement devices, and instrumentation products.

Customized Engineering Solutions

Every process is unique. Our experienced engineering team develops tailor-made solutions to meet specific application requirements, process conditions, and pipeline configurations.

Uncompromising Quality Standards

Every product undergoes rigorous quality inspections, certified material verification, precision machining, and hydrostatic testing to ensure consistent performance and compliance with industry standards.

Innovation-Driven Manufacturing

Through continuous research, modern manufacturing practices, and engineering innovation, we deliver reliable, cost-effective, and long-term solution that enhance plant performance and operational reliability.

OUR MISSION

To design, manufacture, and deliver world-class industrial filtration, flow measurement, and instrumentation solutions that improve process efficiency, ensure equipment protection, and create long term value through superior quality, innovation, and exceptional customer satisfaction.

WARRANTY SUPPORT:

Technical support through telephone, WhatsApp, and email is available from 9:00 AM to 7:00 PM (India Time), Monday to Saturday (excluding public holidays). Our dedicated customer support team delivers prompt and dependable after-sales services for **Industrial Filtration, Flow Measurement, and Instrumentation Solutions**.

We provide comprehensive technical assistance, including installation guidance, troubleshooting support, spare parts management, and warranty services, establishing **ASRE ENGINEERING** as a trusted and reliable partner for industrial process and engineering solutions.

Industries We Serve

Water & Wastewater Industry

Power Plant Industry

Steel Plant Industry

Food & Beverage Industry

Cement & Construction Industry

Chemical & Petrochemical Industry

Aerospace & Defense Industry

Pharmaceutical Industry

Paper & Pulp Industry

Mining & Mineral Industry

Oil & Gas Industry

Agriculture & Irrigation Industry

Strainers , Filters & Valves

Basket Types Strainer

Y Types Strainer

Duplex Types Strainer

T Types Strainer

Strainer/Filter Element

Pot Type Strainer

Magnetic Strainer / Filter

Conical /Temporary Strainers

Conical Filter

Bag Filter Housing

Filter Bags

Self Cleaning Strainers

Damper Valve

Fabricated Butterfly valve

Knife Edge Gate Valve

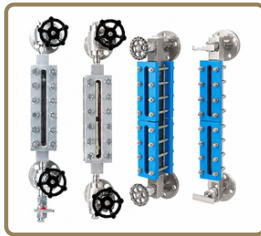

Slide Gate Valve
